Can I live in the same apartment as Rei Ayanami?

Following the "Citizenship" to live in a miniature world, a test sale of the "Property Purchase Program" for a miniature world is now underway.

SMALL WORLDS Inc.

Robot Consulting Co., Ltd. (Head office: Tokyo. CEO: Akihito Usui. Hereinafter "Robot Consulting"), which provides business services in the metaverse, and SMALL WORLDS Inc., (Head office: Tokyo. CEO: Masahiro Kondo.) the operator of SMALL WORLDS TOKYO (Hereinafter "SMALL WORLDS"), Asia's No. 1 indoor miniature theme park in the Odaiba area of Tokyo, have collaborated to develop and market a service that allows users to purchase and enjoy the rights to properties in the SMALL WORLDS miniature world.

As a first step, from November 14, 2022 (Monday), the rights to 12 apartments in the condominium where Rei Ayanami lives in the "Evangelion: Tokyo-3" area and one building in the Asian zone of the "World City" area will be sold on a trial basis.

■What is the "Property Purchase Program" that allows you to buy the rights to a property in the miniature world?

This is a service that allows you to purchase rights to miniature world models of buildings, rooms, model cars, and other items (all of which are therefore rights to a limited number of items for sale). For example, in the case of an apartment, you can select miniatures of the interior and furniture, and we will create a 1/80 scale miniature of the room by 3D scanning the people and pets living in the room.

■Registration and consultation for previews

Please contact us through property-ownership-team@smallworlds.asia (property purchase program consultation email). We will contact you from November 21, 2022 (Monday) to inform you of the preview. This "Property Purchase Program" will be developed so that SMALL WORLDS can also purchase and resell properties in DreamVerse and the Metaverse under development. Robot Consulting Co., Ltd., a company that provides professional services in the Metaverse, plans to use this test sale as an opportunity to develop a platform on the Metaverse with a view to selling properties in the Metaverse in the future.

[What is SMALL WORLDS TOKYO?]

It is a world that is near and can go far. The world of 1/80 where you can encounter countless stories. The big rockets of the small world take off with a roar accompanied by smoke, and airplanes repeatedly take off and land with their engines revving at full speed. People pedaling bicycles as small as the tip of a finger, cars busily passing by, and the cityscape changes from morning to night as the day goes by. The big story in a small world created by the heroine and hero of your dreams, and the inhabitants of the city that makes us feel tender.

SMALL WORLDS is evolving every day using cutting-edge technology. Every day we create another world where people can forget their everyday lives and become excited and absorbed.

A complete new coronavirus infection countermeasure, "Fight back COVID-19"

To ensure that all visitors to SMALL WORLDS TOKYO can enjoy their visit with peace of mind, we take thorough measures to prevent corona, including temperature checks and alcohol disinfection upon entry, as well as regular ventilation. Air pathways are created so that the exhibition space, which tends to be particularly dense, is ventilated as needed.

The Park also measures carbon dioxide levels to ensure that adequate ventilation is always available and is posted on our website. Employees are tested for appropriate antigens.
