**Robot Consulting Co., Ltd. (Head office: Minato-ku, Tokyo. CEO: Hidetoshi Yokoyama. Hereinafter "Robot Consulting"), a company that provides professional services in the metaverse, has completed a third-party allotment of new shares to NAC Corporation (TSE Prime Market) and other domestic/overseas corporations and funds, raising a cumulative total of 850 million JPY in capital financing.**

Robot Consulting has crossed technology and the professional industry to develop a service launch of "Labor Robot", an assistance system for HR and grant applications, "Robot Lawyer" that can talk about laws on the metaverse, and "Lawyer Robot" that can solve reputational damage and labor issues and also look up precedents using AI.

We aim to develop not only specialized services for law and labor offices, but also services that enable various companies to streamline their operations, as well as services that help many people live better lives.

With this capital increase, we intend to develop and build law and labor systems on the metaverse globally, where the boundaries of the world will be eliminated, as well as promote efforts to eliminate law and labor issues in the world.

Comments from the main client companies

■NAC CO.,LTD. (TSE Securities Code: 9788)

<https://www.nacoo.com/>

Architectural Consulting Company Rep: Naoki Oba

The architectural consulting business pursues products and services that enrich people's lives through their homes, and provides a variety of solutions to approximately 7,000 builders and contractors nationwide. Through collaboration with Robot Consulting as part of open innovation, we will create new value in the construction industry, which has lagged behind in the adoption of DX, to improve people's quality of life.

■ASIA HOLDINGS Corporation

<https://www.asia-group.jp/>

Representative: Akira Niimura

It has unknown possibilities, such as the ability to experience extraordinary realism and experiences through virtual space that cannot be experienced in the real world. Metaverse, which allows us to freely construct space, will become even more important in the business field in the future, and we can expect to see the creation of new businesses. We believe that this is a great business opportunity that has the power to fundamentally change the way we do business.

■Stella MIC Investment Ltd.

<https://stella-mic.com/>

Representative: Takumi Sawa

In the ever-growing metaverse industry, we aim to develop services to solve labor and legal issues and help people have more affluent lives.
