Robot Consulting Co., Ltd. (Head office: Minato-ku, Tokyo. CEO: Hidetoshi Yokoyama. Hereinafter "Robot Consulting"), a company that provides professional services in the metaverse, has linked ChatGPT to its service "Robot Lawyer" which is currently under development. This allows users to consult with the AI in a more realistic conversation. We will provide an AI experience that goes beyond traditional chatbot systems. The system is scheduled for release this summer.

[What is a Robot Lawyer?]

- An AI service that lets you talk about the laws in the metaverse.

The laws on the metaverse are still not clearly defined. Although the number of users continues to increase, not many people understand them. As various metaverse businesses continue to expand, many companies and individuals will be concerned about the laws in metaverse. Robot Lawyers can easily consult about laws in the metaverse as easily as searching on the Internet. With a UI that evokes a metaverse space and advanced AI replies through integration with ChatGPT, it is possible to provide users with a high level of service experience. The AI responses are supervised by SAKURA Law Office, which is well versed in the laws of the metaverse, to ensure accuracy of correctness. With this service, we aim to create a society in which legal consultation is more easily accessible.

- Supervised by a law office familiar with the laws of metaverse.

We are also in the process of making the laws in the metaverse space. SAKURA Law Office, which is well versed in this area, will supervise this service to improve the accuracy of the answers provided by the AI.

- We have even designed a lead-in line where you can consult with a real lawyer.

Some users will want to hear more detailed information after having a conversation with the AI. For those users, we have designed a connecting line that allows them to consult with real lawyers in the metaverse space.
